Handmade Disclaimer - TDGF Glass Ceremony art works are individually handmade, one-of-a-kind creations and not factory manufactured. We contract a variety of glass artists from our community to make your glass ceremony piece and each artist has their own unique interpretation of these items. As a result, each piece will vary slightly in shape and size. We do our best to depict these differences in our photos. We like to celebrate the unique nature of each and every single glass ceremony piece. We hope you do as well.
