How it Works

Add elegance to your unity ceremony by combining glass colors. We will use your mixed color to create a symbolic piece of art to be passed on through the ages.

Select up to 4 colors to incorporate into your piece. We'll include a set of 3 vessels for use for pouring the color together during your ceremony.

Once your mixed color is back in our studios, a glass artist incorporates it into a work of art. We will return any unused color to you with your finished piece. This process can take up to 8 weeks.

Remaining color can be used for additional pieces, or gifts for your family and friends.

Glass is Our Passion

We are a community of makers.

Our studios make it possible for glass artists to produce high-quality artwork, while our gallery and event space serve as a platform for the public to connect with glass art.

Our glass is handmade, each piece features its own characteristics that make it a true one of a kind. We value the individuality of each piece, and it is our mission to share that passion with you.

We guarantee that your Glass Ceremony piece will be a unique and beautiful representation of the unity you celebrate on your wedding day, and every day.
