\$450

Open Heart
Jon Biscan
10-12" tall
\$450

How it Works

Add art to your unity ceremony by combining glass frit. Frit is small pieces of glass that can be added to molten clear glass to add color. We will use your mixed frit to create a symbolic piece of art to be passed on through the ages.

Select up to 4 frit colors to incorporate into your piece. We'll include a set of 3 vessels for combining the frit together during your ceremony. Once you return your mixed frit to our studios, a glass artist incorporates it into a work of art. This process can take up to 8 weeks.

We will return any unused frit to you with your finished piece. Remaining frit can be used for additional pieces, or gifts for your family and friends.

Amphora Vase
Jon Biscan
9-11" tall
\$375

Amphora Vase

Glass is Our Passion

We are a community of makers.

Our studios make it possible for glass artists to produce high-quality artwork, while our gallery and event space serve as a platform for the public to connect with glass art.

Our glass is handmade, each piece features its own characteristics that make it truly one of a kind. We value the individuality of each piece, and it is our mission to share that passion with you.

We guarantee that your Glass Ceremony piece will be a unique and beautiful representation of the unity you celebrate on your wedding day, and every day.

Hemisphere Bowl
